

We recognize that you may be using telemedicine for visits with your patients. Acorda has developed several resources to aid you in talking with your patients and initiating treatment with INBRIJA<sup>®</sup> in a virtual setting. Here is a step-by-step guide to make the process as easy as possible.

## Step-by-Step Guide to Prescribing INBRIJA Virtually

1

### Complete the Prescription Request Form

**Download** and Fill out a Prescription Request form

**Fax Completed form to 1-855-886-2484**

\*If you do not have access to a fax machine, call us at 1-888-887-3447

**INBRIJA is now covered on most commercial plans.** Commercial patients are eligible for a **30 dose free trial of INBRIJA.**

Use our Interactive Formulary Tool to check plans.

2

### Train Your Patient

**Utilize the Demonstration Kit** to train your patient on how to administer INBRIJA.

Provide the **Helpful Hints Guide** and **Demonstration Video** to help prepare your patient to use INBRIJA.

Your patients may need several tries to become familiar with the inhalation process.

**Encourage them to try a few times, and to call the Nurse Educators for additional training and answers to any questions about how to use the inhaler.**

## What Happens Next?

Encourage your patient to add INBRIJA's **Prescription Support Services** phone number, **1-888-887-3447**, to their phone contacts so they recognize the caller identity when they call.

**Prescription Support Services will support your patient by:**

- Determining coverage and eligibility for patient support programs including:
  - Co-Pay Mitigation
  - Free Trial Program for eligible patients
  - Patient Assistance Programs and Medicare Extra Help
- Arranging a one-on-one training session with an **INBRIJA Nurse Educator** to:
  - Review appropriate use of INBRIJA
  - Train on how-to-use and clean the device along with other helpful tips
  - Schedule follow-up calls to provide ongoing support, answer questions and provide additional training
- Ensuring your patients receive a Start Kit with helpful resources, including the **Helpful Hints Guide** and a **Demonstration Video**.
